

COVID -19 Quarantine and Isolation Guidance

Effective January 20, 2022 per CDC Guidance

I am a direct contact of someone COVID positive (direct contact is defined as six feet for greater than 15 minutes)

You DO NOT need to quarantine if:

- You have tested positive for COVID within the last 90 days
- You have received a COVID vaccine booster
- It has been less than six months since second dose of Pfizer or Moderna
- It has been less than two months since dose of J&J

I am a direct contact of someone COVID positive (direct contact is defined as six feet for greater than 15 minutes)

Quarantine for five days if:

- You are unvaccinated
- It has been greater than six months since second dose of Pfizer or Moderna
- It has been greater than two months since dose of J&J

I am COVID positive

Isolate for five days
regardless of symptoms or vaccination status and
call Public Health at 907-361-3057
